**model
621**

Altec Lansing has had a loyal following for more than 60 years. Listen to our 621 speaker system and you'll know why. Our premium three-piece desktop system is the music lover's choice for high-performance multimedia sound. It smoothly handles everything from the most thrilling classical music to thumping rap and hip-hop. Most impressive, the flat frequency response ensures you'll hear music, games or DVD soundtracks exactly as the artist intended—without obnoxious bass overtones or prematurely clipped high end. If you're serious about audio, you can't do better than the 621 system.
