- **Cable length:** 4 m
- **Type of cable:** LC-OFC
- **Cable Connection:** One-sided

### Accessories

- **Adaptor plug:** 3.5-6.3 mm

## Product highlights

### Adjustable Comfort level

No matter how you like to 'feel' your headphones, this unique headband construction will always provide you with a personalized, comfortable fit. With height adjustment, you can comfortably wear the headphone for a much longer period.

### Detachable cable

A detachable cable is both convenient to store and easy to replace, so there is no need to buy a new headphone if the cable ever breaks.

### Headband with Flexi-Fit™

The inner headband adjusts automatically to suit your head for 'fit-and-forget' comfort and convenience.

### Headphone storage box

The safest way to look after your headphone and cable when not in use.

### LC-OFC cable

The extremely pure copper used for this cable minimizes transmission losses and delivers superb signal quality to the headphone, and pure sound to your ears.

### Open back ear-shells

Openings in the ear-shells maximize airflow to provide natural sound transparency and optimize the acoustic performance.

### Optimised for digital sound

This headphone is optimized for enjoying today's high-resolution digital sound sources like Super Audio CD, a format that captures the musical atmosphere and emotional impact with outstanding realism. Created by Philips' in-house acoustic experts, this headphone provides you with an extremely pure and natural sound.

### Single-sided cable

The cable is conveniently connected to just one side, considerably reducing the risk of tangling and simplifying winding the cable up for storage.
